SUMMARY

As a passionate and driven Cyber Security researcher with a keen interest in Penetration Testing, I am eager to contribute my skills and enthusiasm to your team. My dedication to safeguarding digital assets and continuous learning enables me to support real-world security challenges and strengthen an organisation's security posture.

- Creative thinker with experience in Linux, Networking, Automation, Penetration Testing, Threat Analysis and Detection, and Security Management.
- Looking to bring fresh ideas, disciplined technical analysis, and a security-first mindset to a forward-thinking team.

EXPERIENCE

Cyber Security Intern | RedTeam Cybersecurity Labs LLP

Aug 2024 - May 2025

- Assisted with Web VAPT and penetration testing, identifying and documenting critical vulnerabilities.
- Used Burp Suite, Nmap, and Metasploit in practical security assessments and real-world projects.
- Created detailed technical reports to support risk-based management decisions.
- Collaborated on penetration testing and threat-intelligence activities, earning a final assessment score of 75/100.

IT / Technical Support | Canrone Software LLP - Kochi, India

Sep 2022 - Sep 2023

- Provided first-line technical support for hardware, software, network, email, and application issues.
- Diagnosed and resolved desktop, printer, connectivity, access, and configuration problems through on-site and remote support.
- Installed and configured operating systems, business applications, user accounts, and peripheral devices.
- Documented incidents, troubleshooting steps, and resolutions, escalating complex issues to the appropriate technical teams.
- Supported routine system maintenance and user onboarding to reduce downtime and maintain service continuity.

Penetration Tester | YesWeHack, HackerOne and Bugcrowd - Remote

Jan 2020 - Present

- Conducted more than 100 vulnerability assessments and delivered comprehensive technical reports.
- Identified vulnerabilities across web applications and supported remediation through clear reproduction steps and impact analysis.
- Collaborated with cross-functional teams to strengthen security controls and improve understanding of technical risk.
- Maintained a 65% approval rate for submitted vulnerability reports while keeping current with emerging attack techniques and security trends.

EDUCATION

GBS DUBAI.....2023 - 2026
HND in Digital Technologies (Cyber Security) Dubai

- Achieved distinction in HND Digital Technologies Level 4 (Cyber Security).
- Completed projects on network security and ethical hacking.
- Gained hands-on experience with cybersecurity tools and techniques.
- Collaborated on team projects to enhance problem-solving skills.

ISBM University Chhattisgarh.....2019 - 2022
Bachelor of Computer Application (BCA) Chhattisgarh

- Graduated with a Bachelor of Computer Application (BCA) degree.
- Achieved a GPA of 3.4/4.0, ranking in the top 10% of the class.

RedTeam Hacker Academy.....2021 - 2022
CEH & CPT Kochi, India

- Certified Ethical Hacker (CEH) with a top 10% exam score.
- Completed Certified Penetration Tester (CPT) with distinction.
- Achieved the highest project grade in CEH practical assessments.

SKILLS

Incident Response
Communication
Network Security Control

Operating Systems
Scripting & Automation
Threat Knowledge

LANGUAGES

English
Hindi

Malayalam

ACHIEVEMENTS

- Apple
- NASA
- HARMAN International
- DCU (Dublin University)
- Trivago
- Zain App
- Flynas
- Salam mobile webapp

Recognised for identifying vulnerabilities in their web applications.

CERTIFICATIONS AND LICENSES

- **CEH (Certified Ethical Hacker)** from EC-Council
- **CPT (Certified Penetration Tester)** from EC-Council
- **Introduction to Cybersecurity** from Cisco
- **Applied ChatGPT for Cybersecurity** from Infosec
- **Blockchain Basics** from Cyfrin Updraft
- **Digital Forensics Concepts** from Infosec
- **Crash Course on Python** from Google
- **Introduction to HTML 5** from University of Michigan
